Prices Good

December 5 - December 11, 2018

It's time to get those holiday orders in! For Prime Ribs, Hams, Smoked Turkeys, and meal items for you; for Gift Boxes, Meat Shipments to Friends and relatives around the country, gift cards, snack trays, and so many more things that Mulholland's has to offer for you!

Genius hacks to keep your healthy food fresh for longer

1. To keep cottage cheese or sour cream fresh, here's an easy tip. Store it upside-down in your fridge! Inverting the container creates a vacuum which will help reduce the chance of mold or bacteria growing on the surface.

2. Store butter in it's original package. Stock up when it's on sale and freeze it to keep it fresh. Seal it up in a freezer bag, and it will stay good for up to 6 months in there!

3. If celery gets limp, put a damp (not wet) microfiber cloth (or paper towel if you haven't joined the revolution yet) at the bottom of a plastic bag. Then put the celery bunch in the bag with the root end touching the damp cloth. The next day the celery will be as crisp as when it was harvested.
